

# Belay B. Yimer

35 Railway Road, Manchester, M32 0RY

☎ +447368408838 | ✉ belaya.birlie@gmail.com | 🏠 <https://belayb.github.io/> | 🐙 [github.com/belayb](https://github.com/belayb) | 📄 Belay B. Yimer

## Research Interest

Bayesian methods, Causal inference, Non-parametric regression, Variable and model selection, Longitudinal Data Analysis, and modelling complex time-to-event data.

## Education

### Hasselt University

Hasselt, Belgium

PhD in Statistics

Oct 2021

- **Thesis:** Analysis of infectious disease data: A Flexible Bayesian Statistical Modeling Approach
- Supervisor: Prof Ziv Shkedy

### Jimma University

Jimma, Ethiopia

MSc in Biostatistics

Sept 2011

- Graduated with Distinction
- **Thesis:** Comparison of Cox and frailty models for clustered time-to-event data
- Main modules: Epidemiology, Clinical Trial, Design of Experiment, Survival Analysis, Longitudinal models, Principles of Statistical Inference, Computer Intensive Methods

### Hawassa University

Hawassa, Ethiopia

BSc in Applied Statistics

July 2008

- Graduated with Distinction

## Work Experience

### Center for Epidemiology, University of Manchester

Manchester, UK

Biostatistician/Research Associate

Sep 2017 - Present

- Developed robust statistical analysis plans, including scalable solutions to analysis challenges posed by the type and structure of the data, for multiple projects
- Led in-house statistical training by delivering lectures, seminars, and workshops
- Contributed to the development of the centre's funding proposals, securing over £200k as a co-applicant

### Jimma University

Jimma, Ethiopia

Lecturer

Sept 2011 - Sept 2017

- Lecturer for Principles of statistical inference course and co-lecturer Survival analysis course for graduate students in Biostatistics
- Supervision of student thesis both at undergraduate and graduate level (5 MSc student thesis supervision completed)
- Led two VLIR-UOS funded capacity building projects between 2014 and 2017

## Selected Projects

### Cloudy with a chance of pain: a smartphone-based study to investigate the association between pain and the weather

University of Manchester

- The study recruited more than 13,000 participants and recorded daily pain severity on a 5-point scale (range: no pain to very severe pain) along with hourly GPS location data to be linked with weather data for up to 15 months.
- We established the link between weather and pain at the population level as well as demonstrated the heterogeneity in weather-pain association at the individual level
- **Role:**
  - Developed an algorithm that links the hourly GPS data to the nearest weather station within a 100 KM radius and downloads weather data from NOAA's Integrated Surface Database (ISD)
  - Developed a significant location imputation approach for handling missing hourly GPS data based on Hartigan's clustering leader algorithm
  - First authored one and co-authored three publications

## Quality of life and sleep in Rheumatoid Arthritis (QUSAR): mHealth study aimed to test whether sleep disturbance (both absolute values and variability) causes poor HRQoL

University of Manchester

- Over 250 participants wore a triaxial accelerometer for 30 days to objectively assess sleep, and provided daily reports via a smartphone app that assessed sleep (Consensus Sleep Diary), pain, fatigue, mood, and other symptoms.
- We showed sleep predicts poor HRQoL independent of disease severity.
- **Role:**
  - Led the development of the statistical analysis plan, prepared the data, and conducted the analysis.
  - Published one paper as a joint last author and Co-authored one (under review in BMC Rheumatology)

## Opioid comparative safety and utilization

University of Manchester

- We studied 1,968,742 new opioid users without cancer from primary care electronic health records across the UK and identified factors associated with long-term use.
- **Role:**
  - Led the development of the statistical analysis plan, prepared the data, and conducted the analysis.
  - Co-authored one publication and secured a follow-up funding as a co-applicant

## Awards

---

**Risk stratification of patients with multi-morbidity at risk of COVID-19 associated adverse outcomes in Greater Manchester**, Turing-UoM Sandpit: AI and Data Science for Translational Digital Health, 2022, £14,000, Co-applicant

**Trends and factors associated with prescription opioid utilization, dependence and deaths in patients with musculoskeletal conditions**, FOREUM Foundation for Research in Rheumatology, 2020, 200,000 (Euro), co-applicant

**Travel grant, rstudio::conf(2022)**, annual RStudio conference, Washington, USA, 2022, \$1500.00 plus accommodation

**Statistics for development: capacity building in statistics at higher education in Ethiopia**, VLIR-UOS, 2017, €119, 869, co-applicant

**Statistics for development: capacity building in statistics at higher education in Ethiopia**, VLIR-UOS, 2016, €58, 476, co-applicant

## Selected Talks at International conferences

---

**Causal mediation analysis using Stan – a g-formula approach**, Royal statistical society, September 6-9, 2021, Manchester, UK, slide

**Short-term forecasting of total number of reported COVID-19 cases in South Africa - A Bayesian temporal modelling approach**, The Sub-Saharan Africa Network (SUSAN) of the International Biometrics Society, September 5-9 (virtual), 2021, Kenya, slide

**Bayesian variable selection for order restricted Dose-response modelling**: Model Selection and Complexity, Annual Conference of The Belgian Statistical Society, October 13-14, 2016, Namur, Belgium, slide

**Bayesian Model averaging in longitudinal studies using Bayesian variable selection methods**, Ethiopian Statistical Association, May 20-22, 2016, Addis Ababa, Ethiopia

**Model selection and Multimodal inference in longitudinal studies using Bayesian variable selection methods**, International Conference on Applied Statistics in Agriculture, 25-26 March 2016, Haramaya, Ethiopia

**Evaluating Durability of First-line cART using Multi-State survival model**, an International Conference on Statistics-2015: Theory to Practice, March 16-18, 2015, Jimma University, Ethiopia

## Publications

---

- Software**
- BayesGmed**: R package for Bayesian Causal Mediation Analysis using Stan, Github
  - drugprepr**: R package for the transparent and efficient preparation of CPRD drug data into information on individuals' drug use over time, CRAN
  - doseminer**: R package for extracting Drug Dosages from Free-Text Prescriptions, CRAN

- Preprints**
- Das, R., Muldoon, M., Lunt, M., McBeth, J., **Yimer, B. B.**, & House, T. (2022). Modelling and classifying joint trajectories of self-reported mood and pain in a large cohort study. arXiv preprint arXiv:2209.15553.
  - Yimer, B. B.**, Lunt, M., Beasley, M., Macfarlane, G. J., & McBeth, J. (2022). BayesGmed: An R-package for Bayesian Causal Mediation Analysis. arXiv preprint arXiv:2210.08499.
  - Williams, R. D., Reps, J. M., Sena, A. G., Burn, E., He, Y., Morales, D. R., ... & Prieto-Alhambra, D. (2020). Development and validation of patient-level prediction models for adverse outcomes following total knee arthroplasty. medRxiv, 2020-12.

## Methodology

- Jani, M., **Yimer, B. B.**, Selby, D., Lunt, M., Nenadic, G., & Dixon, W. G. (2023). "Take up to eight tablets per day": Incorporating free-text medication instructions into a transparent and reproducible process for preparing drug exposure data for pharmacoepidemiology. *Pharmacoepidemiology and Drug Safety*. <https://doi.org/10.1002/pds.5595>

- Degefa, T., Zeynudin, A., Godesso, A., Michael, Y. H., Eba, K., Zemene, E., ... & Yewhalaw, D. (2015). Malaria incidence and assessment of entomological indices among resettled communities in Ethiopia: a longitudinal study. *Malaria journal*, 14(1), 1-11.
- Hamu, H., Debalke, S., Zemene, E., **Yimer, B. B.**, Mekonnen, Z., & Yewhalaw, D. (2014). Isolation of intestinal parasites of public health importance from cockroaches (*Blattella germanica*) in Jimma Town, Southwestern Ethiopia. *Journal of Parasitology Research*, 2014.

## Teaching

**Bias and confounding - Introduction to Epidemiology, Genetic Epidemiology, and Biostatistics course**, center for epidemiology, University of Manchester, 2021 & 2022 academic year.

**Longitudinal data analysis - Applied Epidemiology and Biostatistics course**, center for Epidemiology, University of Manchester, 2022 academic year.

**Principles of statistical inference**, MSc in Biostatistics program, Jimma University, course led 2014 - 2016 academic years, course material

**Survival analysis**, MSc in Biostatistics program, Jimma University, Co-lecturer, 2014 academic year

**Bayesian Statistics**, MSc in Biostatistics program, invited lecture, Gondar University, May 22 - 25, 2017 , course syllables

**Infectious disease modelling**, MSc in Biostatistics program, invited lecture, Gondar University, May 29 - Jun 02, 2017.

## Post-graduate students

---

<b>Huilian Xu</b>	<b>Patterns of inpatient opioid prescriptions among patients with non-cancer pain</b> , MSc in health data science program, 2022, University of Manchester.
<b>Solomon Abebaw</b>	<b>Frailty modelling for spatially correlated survival data with application to infant mortality in Ethiopia</b> , 2015, MSc in Biostatistics program, Jimma University
<b>Tafere Tilahun</b>	<b>Application of semi-parametric mixed model for modelling a longitudinally measured fasting blood sugar level of adult diabetic patients in Jimma university specialized hospital, south-west Ethiopia</b> , 2014, MSc in Biostatistics program, Jimma University
<b>Feysal Kemal</b>	<b>Survival analysis of time-to-recovery from vesicovaginal obstetric fistula: Application of the Lasso method for variable selection</b> , 2014, MSc in Biostatistics program, Jimma University
<b>Biniyam Yegoraw</b>	<b>Modeling age at menarche: a comparison of multivariate time-to-event models</b> , 2013, MSc in Biostatistics program, Jimma University
<b>Abyot Negash</b>	<b>Modeling time-to-recovery of adult diabetic patients: A comparison of Cox regression and shared frailty model</b> , 2013, MSc in Biostatistics program, Jimma University

## Leadership and service

---

Centre for Epidemiology Versus Arthritis representative for the UK Research in Musculoskeletal Epidemiology (UK-RiME) partnership, 2019 - present

Strategic management team member, Center for Epidemiology, University of Manchester, 2020 - present

Seminar organiser for the Biostatistics forum, Centre for Epidemiology Versus Arthritis, 2020 - present

Organising committee for the R-user group, University of Manchester and Metropolitan University of Manchester, 2019 - 2022
