Research Interest

Bayesian methods, Variable and model selection, Longitudinal Data Analysis, Causal inference, and modelling complex time-to-event data.

Experience

- 2017– Present: **Research Associate**, Center for Epidemiology Versus Arthritis (formerly Arthritis Research UK Centre for epidemiology), University of Manchester, Manchester, UK (Versus Arthritis funded project).
 - Duties:
 - Developing robust statistical analysis plans that address the study objectives, including scalable solutions to analysis challenges posed by the type and structure of the data.
 - Providing expert statistical analysis for ongoing projects in the centre
 - Contribute to the planning and delivery of ad hoc lectures, seminars, workshops and short courses.
 - Contribute to the development of the centre's funding proposals
- 2016 – 2017: **Assistant Professor of Statistics**, Jimma University, Jimma, Ethiopia
 - Duties:
 - Lead Lcturer for Principles of statistical inference course and co-lecture Survival analysis course for graduate students in Biostatistics
 - Supervision of student thesis both at undergraduate and graduate level (5 MSc student thesis supervision completed)
- 2011 – 2015: **Lecturer**, Jimma University, Jimma, Ethiopia
 - Duties:
 - Teaching and supervision of undergraduate student thesis
- 2008 – 2011: **Graduate Assistant**, Jimma University, Jimma, Ethiopia

Education

- 2021: **PhD in Statistics**, Hasselt University, Belgium
 - Thesis: Analysis of infectious disease data: A Flexible Bayesian Statistical Modeling Approach ([belaybirlieyimer.pdf \(ibiostat.be\)](#)).
 - Supervisor: Prof. Dr Ziv Shkedy
- 2011: **MSc in Biostatistics** (Graduate with distinction), Jimma University, Jimma, Ethiopia
 - Thesis: Modeling time-to-first malaria infection among children under the age of 10: comparison of Cox and frailty models
 - Supervisors: Prof. Dr Yehenew Getachew and Dr Wondwossen Kassahun
- 2008: **BSc in Applied Statistics** (Graduate with distinction), Hawassa University, Ethiopia

Grants

- 2022 – 2023: Risk stratification of patients with multi-morbidity at risk of COVID-19 associated adverse outcomes in Greater Manchester, University of Manchester internal funding, (Role: **Co-I**)
- 2020-2022: Trends and factors associated with prescription opioid utilization, dependence and deaths in patients with musculoskeletal conditions, FOREUM Foundation for Research in Rheumatology, 200,000 euro (Role: **Co-I**)
- 2016 – 2017: Statistics for development, Belgium government (VLIR) funded project, 58, 476 euro (Role: **Co-promotor**)
- 2015 – 2017: **Project leader-south**: Socio-economic and statistical modelling subproject, IUCJU (Belgium government (VLIR) funded project)

Past and Current Projects

- Assembling the Data Jigsaw: Powering Robust Research on the Causes, Determinants and Outcomes of MSK Disease ([Centre for Epidemiology | Assembling the Data Jigsaw - Centre for Epidemiology \(manchester.ac.uk\)](https://www.cfe.manchester.ac.uk/research/projects/))
- Cloudy with a chance of pain: a smartphone-based study to investigate the association between pain and the weather (<https://www.cloudywithachanceofpain.com/>)
 - Contribute to the development of a statistical analysis plan, data preparation, and analysis.
 - One first-author paper and Co-authored three papers.
- Quality of life and sleep in Rheumatoid Arthritis (QUSAR) (<https://www.arthritisresearchuk.org/news/arthritis-today/2016/july/links-between-sleep-and-living-well.aspx>)
 - Led the development of the statistical analysis plan, prepared the data, and conducted the analysis.
 - Published one paper as a joint last author and co-authored one (under review).
- Opioid comparative safety and utilization (<http://www.cfe.manchester.ac.uk/research/projects/>)
 - Led the development of the statistical analysis plan, prepared the data, and conducted the analysis.
 - Co-authored one paper.

Talks at Conferences and workshops

- 2021: Causal mediation analysis using Stan – a g-formula approach, Royal statistical society, Manchester, UK
- 2021: Transparent and efficient preparation of CPRD drug data into information on individuals' drug use over time, Manchester Digital Epidemiology Summer school, July 21-23, 2021, Manchester, UK
- 2019: Causal mediation analysis for longitudinal ordinal data, UK-RiME, University of East Anglia, Norwich, UK
- 2018: Handling Missing GPS data, Manchester Digital Epidemiology Summer school, July 18-20, 2018, Manchester, UK
- 2016: Bayesian variable selection for order restricted Dose-response modelling: Model Selection and Complexity, Annual Conference of The Belgian Statistical Society, October 13-14, 2016, Namur, Belgium
- 2016: Bayesian Model averaging in longitudinal studies using Bayesian variable selection methods, Ethiopian Statistical Association, May 20-22, 2016, Addis Ababa, Ethiopia

- 2016: Model selection and Multimodal inference in longitudinal studies using Bayesian variable selection methods, International Conference on Applied Statistics in Agriculture, 25-26 March 2016, Haramaya, Ethiopia
- 2015: Evaluating Durability of First-line cART using Multi-State survival model, an International Conference on Statistics-2015: Theory to Practice, March 16-18, 2015, Jimma University, Ethiopia

Teaching

- 2014: Principles of statistical inference, MSc in Biostatistics program, Department of statistics, Jimma University, co-lecture.
- 2015: Principles of statistical inference, MSc in Biostatistics program, Department of statistics, Jimma University, co-lecture.
- 2015: Survival analysis, MSc in Biostatistics program, Department of statistics, Jimma University, co-lecture.
- 2016: Principles of statistical inference, MSc in Biostatistics program, Department of statistics, Jimma University, led-lecture.
- 2017: Bayesian statistics, MSC in Biostatistics program, Department of Epidemiology and Biostatistics, Gonder University, Guest lecture.
- 2017: Infectious disease modelling, MSC in Biostatistics program, Department of Epidemiology and Biostatistics, Gonder University, Guest lecture.
- 2021: Bias and confounding, Introduction to Epidemiology, Genetic Epidemiology, and Biostatistics Course, center for epidemiology, University of Manchester.
- 2022: Bias and confounding, Introduction to Epidemiology, Genetic epidemiology, and Biostatistics course, center for epidemiology, University of Manchester.
- 2022: Longitudinal data analysis, Applied epidemiology and Biostatistics course, center for epidemiology, University of Manchester.

Post-graduate students

- 2013: Abyot Negash, Modeling time-to-recovery of adult diabetic patients: A comparison of Cox regression and shared frailty model, MSc in Biostatistics program, Jimma University
- 2013: Biniyam Yegoraw, Modeling age at menarche: a comparison of multivariate time-to-event models, MSc in Biostatistics program, Jimma University.
- 2014: Feysal Kemal, Survival analysis of time-to-recovery from vesico-vaginal obstetric fistula: Application of the Lasso method for variable selection, MSc in Biostatistics program, Jimma University.
- 2014: Tafere Tilahun: Application of semi-parametric mixed model for modeling a longitudinally measured fasting blood sugar level of adult diabetic patients in Jimma university specialized hospital, south west Ethiopia, published here, MSc in Biostatistics program, Jimma University
- 2015: Solomon Abebaw, Frailty modeling for spatially correlated survival data with application to infant mortality in Ethiopia, MSc in Biostatistics program, Jimma University.
- 2022: Huilian Xu, Patterns of inpatient opioid prescriptions among patients with non-cancer pain, MSc in health data science program, University of Manchester

Publication

Methodological papers - Research articles evaluating or demonstrating statistical modelling approaches.
